Dear Parent(s),

This school and its teachers use several websites offering tools to engage students and drive their learning. We wanted to make you aware of federal laws and regulations that apply to the use of technology to support classrooms and require parent consent in order to be most effective.

#### FERPA

In order for a teacher to use online tools with student records or other information that could be personally identifiable, the Family Education Rights and Privacy Act (FERPA) requires that we obtain your consent to disclose your student's information to the website's operator or to other participants for the limited purpose of accessing the online tool.

#### COPPA

In order for students to use online programs/services, certain personal information must be provided to the web site operator. Under the Children's Online Privacy Protection Act (COPPA), the websites must provide parental notification and obtain parental consent before collecting personal information from children under the age of 13. For more information on COPPA, please visit <http://www.ftc.gov/privacy/coppafaqs.shtm>.

Please take a moment to look at the website below to view its policies and to see what personal information the site collects. If an email address is needed when using the site, we will have your student use his or her District-provided email account.

After reviewing the website, please sign and return this form with your Kinder Camp Registration and Health forms. This will serve as your permission for your student to have access to the site listed as well as your permission for us to upload your student's information into the application so that we can make the most of its functions.

At this time, consent is applicable to the following website that your child's teacher will be using during Kinder Camp and the following school year.
